APT10-PPU, APT14-PPU and **APT14HC-PPU (Closed System) Automatic Pump-trap Packaged Units**

Description

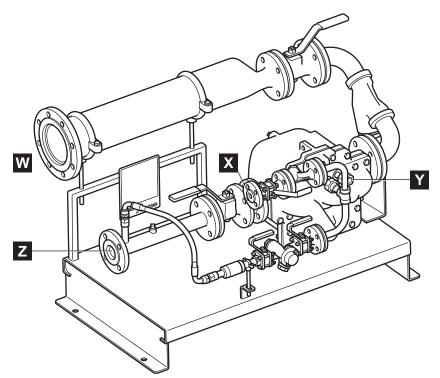

The Spirax Sarco APT10-PPU, APT14-PPU and APT14HC-PPU automatic pump-trap packaged units are plug in systems specifically designed to remove condensate from plant under 'stall' conditions. The whole system is capable of handling capacities up to 2800 kg/h pumping and 9000 kg/h trapping, depending on available differential pressure.

Each unit comes with a condensate receiver, motive supply drain trap and ancillaries.

Operated by steam the APT10, APT14 and APT14HC-PPU's meet a wide range of applications. The standard pump-trap is manufactured from SG iron, although electroless nickel plated (ENP) versions are available on request.

These products fully comply with the requirements of the European Pressure Equipment Directive 97/23/EC and carry the € mark. All welding is in accordance with ASME IX, BS EN 287/288, BS EN part 1-2004 and BS EN ISO 15614 part 1-2004.

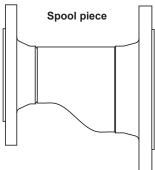

These products are available with a Declaration of Conformity. Other certification is available for individual component parts if required, at extra cost. Note: All certification/inspection requirements must be stated at the time of order placement.

Capacities

Sizing of the pump-trap is dependent on motive pressure, backpressure (lift, return system pressure and frictional losses) and process conditions.

For accurate sizing for the application please contact Spirax Sarco.

^{*} Please note: Items 9, 10, 11 and 12 are not included with the pump package. They must be ordered as a separate item. It is intended that the end user provides the pipework and connects these components correctly - see Section 3 'Installation' of the Installation and Maintenance Instructions (IM-P680-02) supplied with the unit.

Items 9, 10, 11 and 12 are to be connected to the outlet of the system by the end user.

Safety information, Installation and maintenance

For full details see the Installation and Maintenance Instructions supplied with the unit.

For full details of the individual component products see separate installation and Maintenance Instructions also supplied with the unit.

Spare parts

Either refer to the individual component product Technical Information sheets (TI) or Installation and Maintenance Instructions (IM) supplied with the unit, for availability of spare parts.

How to specify

Spirax Sarco APT14-PPU (APT10-PPU or APT14HC-PPU) closed system automatic pump-trap packaged unit, operated by steam up to 13.8 bar g (4.5 bar g for the APT10-PPU). The complete system shall be supplied with PED markings, with all welding in accordance with BS EN 287/288.

How to order example

1 off Spirax Sarco DN40 x DN25 APT14-PPU (closed system) automatic pump-trap packaged unit with flanged PN16 external connections plus the optional DN100 x DN40 spool piece.

1 off Spirax Sarco air vent kit for APT14-PPU.
