**Description**

Looking for a low cost viscosity compensated flowmeter? Look no further than the KOBOLD VKA line of meters! The VKA flowmeter combines proven and reliable construction with affordable pricing. Available for flow rates from 2 GPH to 26 GPM, the VKA is a viable alternative to the VKG and VKM series of flow metering products. Internal modifications reduce the pressure loss through the meter to 8 PSI, while still maintaining a compensated viscosity range of 30 to 300 cSt.
