

Item description/product images

Description

Material:

Stainless steel

Version:

- 24 piece ¼" socket set consisting of:
- Sockets AF 4, 4.5, 5, 5.5, 6, 7, 8, 9, 10, 11, 12, 13 and 14 mm
- Hex bit sockets AF 3, 4, 5, 6, and 8 mm
- Socket grip L=134mm
- Ratchet grip L=115mm
- Universal joint L=36.5mm
- Long extension L=147mm
- Short extension L=55mm

Note:

Stainless steel tools prevent risk of extraneous rust in stainless steel screw connections. Stainless steel tools also require no surface handling and cause no allergic reaction through contact caused by chemical coatings.

Application:

Versatile.

Advantages:

Up to 20% higher torque values in the HINOX® program (static loading).

Stainless steel delivers higher strength values as standard materials (31 CrV 3) with the same hardness.

Higher safety in use / less risk of injury.

Up to three times longer life expectancy in dynamic permanent loading.

Considerably longer service life as comparable competing products (stainless steel instead of plating).

Weather resistant by outdoor use.
