

235

SSC

Description

Chesterton® 235 SSC is a concentrated high alkaline aqueous degreaser that quickly and efficiently cuts through grease and grime.

The product can be diluted as required for versatility on all cleaning jobs. Chesterton 235 SSC removes grease, oil, cutting fluids, and other heavy industrial soils from parts and equipment in process, and hard surfaces such as concrete floors, masonry walls, drilling rigs, engine blocks, railroad equipment, construction equipment, and papermaking machinery.

Used with steam it cuts through many deposits that would ordinarily require a solvent based product. The product mixes readily with water and leaves no undissolved powder residue. It is biodegradable and contains no phosphates to contribute to pollution of waterways.

Composition

Chesterton 235 SSC is formulated with grease cutting agents and emulsifiers that penetrate and lift soils making it easier to rinse them away.

The product contains no solvents and presents no fire hazard to workers. It produces no unpleasant odors or irritating fumes when sprayed and can be used in parts washers, steam cleaners and with portable attachments to steam lines.

Typical Physical Properties

Form	Liquid
Color	Yellow
pH	13.6
Flash Point	None

pH Dilution Curve

Applications

Use Chesterton 235 SSC on all hard surfaces including concrete, masonry, papermaking, clothing, machinery and equipment of all types. Do not use on aluminum.

Features

- Biodegradable
- Nonflammable
- Removes Grease and Oil
- Mixes Instantly
- Completely Soluble
- NSF A4 Registration number 133964

Directions

Dilute to desired strength. Chesterton® 235 SSC can be used in most types of parts washers, or be applied by mop, brush, sponge or spray. Its cleaning efficacy will be increased when used with heat. The product can also be used in steam cleaners and in portable attachments to steam lines.

If using on painted surfaces, it is advisable to test a small area for compatibility before using product.

Safety

Before using this product, please refer to the Material Safety Data Sheet (MSDS) or applicable safety sheet for your area.
