RO PP | 5 SE

Aluminum Roll-On Closure System

*Superior
Performance*

RO PP | 5 SE is a classic. Its safety ring, which is visibly splitting up when opening (or remains on the bottle), reliably ensure the safety of your product. The system has proven effective on glass and PET bottles for decades in the German and International wine world. RO PP | 5 SE is a cost effective alternative. This is your opportunity to unite cost-effectiveness, product safety and 'made in Germany' quality.

Tamper Evidence Security

5-Score Band

- Tamper Evidence band visibly breaks into 5 segments and remains with the closure shell after opening, mandatory for returnable

RO PP Non-Split Band

- Tamper Evidence band breaks at the bridges and remains on the bottle
- Ideal for one-way bottles

Perfect Sealing Performance

- PVC-free liner provides optimum sealing performance

Product Specification

- 28 mm aluminum roll-on closure
- Fits glass neck finishes MCA I / II / III / MCA 7.5 R / MCA 7.5 RF and 1650 / 1655 glass as well as PET neck finish BPF

- PVC-free liner for up to 50% alcohol vol. suitable
- For one-way and returnable bottles (two different versions of tamper band, 5-Score and RO PP non-split)
- For cold- and hot-fill, pasteurized, still and carbonated beverages

Engineered for Quality

- Easy to open and to reseal
- Consistent removal torques
- Sophisticated multi-color top printing
- Printing inside the closure is suitable for promotional campaigns

Top Quality for the Beverage Industry
