

BioSprayD2®

Surface Sanitizer & Disinfectant
A Better Solution®

BioSpray D2® Formula

- Kills **99.999%** of all Bacteria & Viruses
- Is a Hospital-Grade Disinfectant
- Is a Food Grade Surface Sanitizer
- Can be used as a Cleaner with No Spraying
- Is Ideal for Water-Sensitive Equipment
- Is Non-Corrosive
- Does not Stain Skin, Fabrics, Plastics, Metals, Glass or Formica
- Requires No Rinse
- Is Fast Drying
- Requires No Wipe (No Cross Contamination)

FOOD PROCESSING

For Food Contact Surfaces

A No Rinse Isopropyl/Quat-Based Sanitizer/Disinfectant
 Designed for

Water Sensitive Equipment

- Tools
- Motors
- Freezers
- Control panels
- Proximity switches
- Inside electrical panels
- Dry production areas
- Thermometers
- Labelers
- Utensils
- Scales
- Belts

OFFICE BUILDINGS

Dr. Charles P. Gerba, a University of Arizona at Tucson microbiologist, led a study that revealed bacteria counts on typical surfaces in office environments. The study found that there was 400 times the number of germs on office desks than found on toilet seats.

Top 5 areas with germ counts:

- Phone: 25,127 microbes per sq. inch
- Desk: 20,961 microbes per sq. inch
- Keyboard: 3,295 microbes per sq. inch
- Mouse: 1,676 microbes per sq. inch
- Fax: 301 microbes per sq. inch

MICROORGANISMS SUSCEPTIBILITY TO CHEMICAL DISINFECTANTS

BioSpray D2®

BioSpray D2® is ready-to-use, no-rinse, highly evaporative, non-corrosive and fast acting. Ideal for water sensitive equipment, **BioSpray D2** sanitizes in 60 seconds and disinfects in 5 minutes. This unique product is powerful enough to kill Norovirus yet safe enough to use on food-contact surfaces without a rinse.

BioSpray D2 is a rapid kill surface sanitizer/disinfectant spray approved for "Food Contact Surfaces without a Rinse" and is a combination of isopropyl alcohol and a powerful quaternary ammonium compound which kills 99.999% of detectable pathogens.

Safe for water sensitive equipment, **BioSpray D2** is used in food production facilities, healthcare and office buildings.

In food production, **BioSpray D2** is specifically designed for tools, motors, freezers, control panels, proximity switches, inside electrical panels, dry production areas, thermometers, labelers, utensils, scales, belts and other water sensitive areas.

In healthcare and offices, **BioSpray D2** is perfect for water sensitive equipment such as keyboards, phones, mice, fax machines and more as it is non-corrosive, works fast and evaporates quickly.

Want to Lower Your Formula Cost From Trigger Sprayers for BioSpray Technology-Approved Formulas?

BioSpray® Power Packs Reduce Your Cost to as Low as **½ of 1¢** per Square Foot!

BioSpray® Power Pack Systems

- Reduce Labor Time up to 63% with Fast, Precise Delivery System
- Use up to 88% Less Formula with Patent-Pending Technology
- Patent-pending Atomizing Spray Technology Reaches Nooks, Crannies and Crevices
- Consistent, Calibrated Delivery System Helps Ensure Dwell Times are Met on Even the Most Challenging Environmental Surfaces
- Are Ideal for Hard-to-Care-For Areas & Equipment
- Have Proprietary Quick Settings to Treat Small, Single Devices up to Large Areas
- Do Not Require Electricity
- Are Portable, Light Weight & Easy to Operate
- Have CO₂ & Nitrogen Option in Various Size Models to Fit Any Need & Budget
- Pay for Themselves Quickly – Buy, Lease or Rent
