## Models BW4B -1 and BW4B-2 Slicer Warmers

Item No: \_\_\_\_\_

AIA FILE NO./ SPEC NO.
CONSULTANT/ CONTRACTOR APPROVAL

Model BW4B-1  
(Slicer not included)

The Marshall **Model BW4B-1** Slicer Warmer features patented ThermoGlo™ heating technology. Heat radiates from every square inch of the upper and lower flat plate surfaces maintaining uniform holding temperature and improved moisture retention for up to 45 minutes. The upper heat plate centers over the meat while the lower plate provides heat to the sliced meat as it falls onto the slicer landing area.

Marshall's ThermoGlo™ technology replaces heat lamps and lamp sockets with a robust, unbreakable design that is easy to clean. The **Model BW4B-1** is designed to be counter-top mounted. The top heater arm is adjustable to accommodate selected models of either a Globe (models 4913 and 4975) or Hobart slicer (models 2912 and H59-1B). The self-centering top section swivels with a light touch of the handle allowing easy access to the slicer for adding and removing product and cleaning.

The **Model BW4B-2** consists of the pivot base and tube only. It is intended to be installed using the existing heater arm.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order, call your approved Kitchen Equipment Supplier.

Marshall's Slicer Warmer features patented ThermoGlo™ technology designed to solve demanding food warming and holding requirements. The model BW4B-1 is the complete model. The model BW4B-2 consists of the base only for use with existing heaters.

### FEATURES

- Upper and lower heat provides consistent product temperatures
- Flat heater surface allows for easy wipe-clean maintenance
- Top portion swivels to allow for easier access
- Food stays "presentation ready" longer
- Slicer Warmer is designed to mount on a countertop
- No glass bulbs or ceramic heaters
- NSF-approved gasket supplied for bottom base

### CONSTRUCTION

- Heavy gauge stainless steel
- Designed with a flat unbreakable heat radiating metal face encased in stainless steel housing

**ETL (US & Canada), CE & NSF Listed  
FOR COMMERCIAL USE ONLY**
