MSR460MIS2W	Non-Fused Interlocked Receptacle	60A 3W 4P 600VAC 50HP Max

Sure-grip Rubberized Locking Ring

Provides high impact protection and NEMA 4X Rating

Coarse Rugged Threading

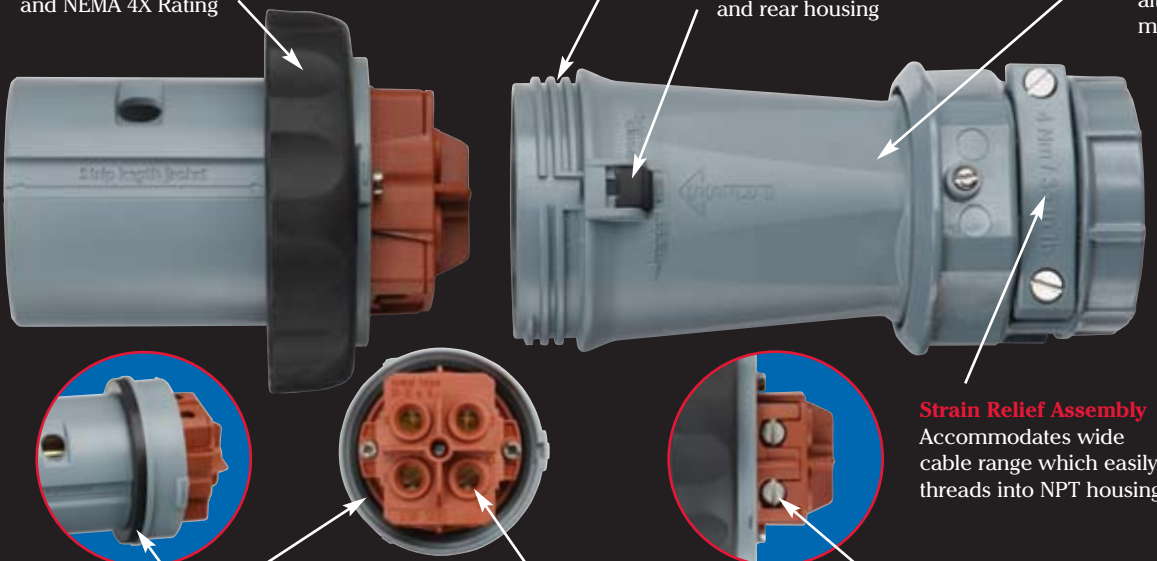

Facilitates quick assembly

Screwless Locking Tab

To secure assembly of front and rear housing

Rugged Housing

Offers outstanding insulation for user safety. Innovative design and engineered materials provide a durable alternative to traditional metal products.

Strain Relief Assembly

Accommodates wide cable range which easily threads into NPT housing

Molded Gaskets

Permanently molded to the housing for watertight seal. Unique design assures gaskets will never be lost or misaligned.

Ready to Wire Terminals

Provided with backed out terminal screws and large wire chamber to speed installation

Oversized Terminal Screws

Preferred by installers

Interchangeable with other manufacturers
